

**Thank you for your interest in adopting a Newfoundland Dog through Newf Friends
newfoundland Dog Rescue.**

**Completing this application does not put the applicant or the rescue group under any obligation.
All information is kept strictly confidential.**

We will keep your application on file for one year. If we have a Newfoundland Dog that we feel will suit your needs we will contact you. You may also contact us if you see a Newfoundland Dog you are interested in on our web page or HART's Petfinder listings. In the mean time please note some additional information below:

Newfoundland Dogs and Children:

In most cases we do not adopt Newfoundland Dog to families with babies or small children. This would include children under the age of 5. Although Newfs are typically gentle dogs and excellent with children, we don't always know how some of our Newfoundland Dog get along with children. This is for the safety of your family. From time to time we do have a Newfoundland Dog we know gets along with children, but there is a waiting list for these dogs so please be patient.

Application Follow-Up:

One of our volunteers will contact you to follow-up on your application. We have many applications and only a few volunteers to process them, so it can sometimes take a while.

Please be advised that a home visit may be required before your application can be approved. We request that all family members be present at this interview.

We take all steps necessary to ensure our Newfoundland Dogs are perfectly matched to their new families. This can often take some time but is always certainly worth it. We appreciate your patience. Thanks for your support!

By submitting this application, you state that all information is true and accurate. If approved for adoption, this application becomes part of your adoption agreement.

Application MUST be completed in full.
